## **Missouri Charge Code Manual**

### **Instructions for Use**

This manual contains three primary user sections with a supplemental section that contains charge codes that were either added or revised from the previous year. The first major section is sorted by the Major Category Index. This method of sorting enables the user to locate the proper charge code information by first locating the correct crime category and then scanning the literal description of the offenses to identify a specific charge. Immediately following the criminal charges of each major category is a listing of the National Crime Information Center (NCIC) and state modifiers for that specific crime category. The numeric modifiers are used to accurately complete the Missouri Charge Code information for the offense identified. The second section lists criminal charges in ascending order by statute number. This section can best be utilized to locate the correct charge information if the state statute is known. Immediately following the criminal charges in section 2 is the list of NCIC state modifiers used to complete the Missouri Charge Code information. The third section contains state charge codes necessary for reporting local municipal violations to the Central Repository and is sorted by major category.

Each of the first two sections are organized into columns that include the Report Code, Penal Range, Missouri or United States Statutes, Missouri Charge Code, NCIC Code, Uniform Crime Reporting (UCR) Code, and the literal description of the offense. The Report Code column identifies all charges that are designated as mandatory reportable offenses per Missouri State Statute. Reportable offenses, identified by an "R" in the report code column, are submitted to the Central Repository by accurately completing a state and federal criminal fingerprint card. The information in the following columns: Penal Range, Literal description, Statute, Missouri Code, and NCIC Code are entered on the State Criminal Fingerprint Card for submission to the Central Repository. Without complete fingerprints and accurate criminal history information, a criminal record cannot be established. The Municipal Ordinance Section does not have a report code column since the Driving While Intoxicated violations are the only mandatory reportable offenses in the ordinance section.

The Missouri Charge Code is a unique eight digit number used to identify a specific charge. If the Missouri Code identifier associated with the charges selected for submission is not complete, the missing information should be completed by the following process. Select the correct two digit state modifier from the NCIC and STATE modifier listing for the offense and enter the corresponding digits into the first two blank code locations. The remaining code location is completed by entering the correct modifier for either not applicable, attempt, accessory, or conspiracy for that offense. The modifiers for not applicable, attempt, accessory, or conspiracy are as follows: .0 Not Applicable, .1 Attempt, .2 Accessory, and .3 Conspiracy. These modifiers are also listed at the end of each major crime category following the NCIC and state modifiers.

The following is an example for completing Missouri charge code and NCIC code based on a subject that has been arrested for the offense of possession of cocaine first offense. The charge information for this offense can be located either in section 1 under the major category heading DANGEROUS DRUGS page 25 or in section 2 by statute number 195.202 page 61.

**Example from Section 1 Page 19**

.0 Not Applicable      .1 Attempt      .2 Accessory      .3 Conspiracy

For the remaining position enter the code for "Not Applicable" (.0) since the charge was not an attempt, accessory, or conspiracy. Therefore, the complete Missouri charge code for possession of cocaine first offense is **3245032.0**.

To complete the NCIC code **35\_\_** use the same two digit modifier (**32**) as entered in the Missouri Charge Code. Therefore, the complete NCIC code is 3532.
